## Fact-O-Rama

A bi-weekly forum for students. Guests from the community are invited to speak on various subjects of interest, concerning business, politics, sports, religion, family and social life and other current issues. This gives the opportunity for students to be exposed to and interact with important people in the community.

## Campus Parent

A programme by which all students are divided among faculty members (or faculty member families). Thus, a student will have a "Campus Mother" or "Campus Father". These "parents" are responsible for being guardians to each student in their care; inviting them into their hearts and their homes. They will give advice, counsel, encouragement and support when needed. This will naturally better student/faculty relationships.

## Student Lounge and Park
